

# Contents

Preface

<b>Chapter 1 Linear Systems and Stability</b> .....	<b>1</b>
1.1 Linear systems with distinct eigenvalues.....	1
1.2 Operator exponentials .....	7
1.3 Linear systems with repeated eigenvalues.....	8
1.4 Nonhomogeneous linear systems.....	18
1.5 Linear systems with periodic coefficients .....	21
1.6 Stability and boundary .....	22
1.7 Lower-dimensional linear systems .....	33
1.7.1 One-dimensional linear systems.....	33
1.7.2 Planar linear systems.....	35
1.7.3 Three-dimensional linear systems .....	41
References.....	53
<b>Chapter 2 Stability Switching and Bifurcation</b> .....	<b>55</b>
2.1 Continuous dynamical systems.....	55
2.2 Equilibriums and stability .....	58
2.3 Bifurcation and stability switching .....	70
2.3.1 Stability and switching.....	76
2.3.2 Bifurcations .....	95
2.3.3 Lyapunov functions and stability .....	106
References.....	106
<b>Chapter 3 Analytical Periodic Flows and Chaos</b> .....	<b>109</b>
3.1 Analytical periodic flows .....	109
3.1.1 Autonomous nonlinear systems.....	109
3.1.2 Periodically forced nonlinear systems.....	117
3.2 Nonlinear vibration systems.....	121
3.2.1 Free vibration systems .....	121
3.2.2 Periodically forced vibration systems .....	131
3.3 A periodically forced Duffing oscillator.....	135

References.....	165
<b>Chapter 4 Global Transversality and Chaos .....</b>	<b>167</b>
4.1 Nonlinear dynamical systems.....	167
4.2 Local and global flows .....	171
4.3 Global transversality.....	176
4.4 Global tangency.....	184
4.5 Perturbed Hamiltonian systems.....	192
4.6 Two-dimensional Hamiltonian systems.....	196
4.7 First integral quantity increment .....	201
4.8 A damped Duffing oscillator.....	204
4.8.1 Conditions for global transversality and tangency .....	206
4.8.2 Poincare mapping and mapping structures .....	211
4.8.3 Bifurcation scenario .....	217
4.8.4 Numerical illustrations.....	223
References.....	236
<b>Chapter 5 Resonance and Hamiltonian Chaos .....</b>	<b>237</b>
5.1 Stochastic layers .....	237
5.1.1 Definitions.....	237
5.1.2 Approximate criteria .....	241
5.2 Resonant separatrix layers.....	250
5.2.1 Layer dynamics .....	252
5.2.2 Approximate criteria .....	257
5.3 A periodically forced Duffing oscillator.....	262
5.3.1 Approximate predictions.....	262
5.3.2 Numerical illustrations.....	269
5.4 Concluding remarks.....	282
References.....	283
<b>Index.....</b>	<b>285</b>
