

Symposium on Industrial Engineering

To be held International Conference on Nonlinear Dynamics and Complexity

July 23-29, 2012 • Jinan, China

The aim of the symposium is to bring together researchers with different backgrounds and interests in all aspects of Industrial Engineering, in order to further communication, collaboration, and exchange of new ideas. This symposium welcomes all researchers, academicians, practitioners, as well as students interested in any branch of Industrial Engineering.

The topics include, but are not limited to the following:

- Logistics, transportation, and distribution systems
- Industrial engineering and systems management
- Innovation management and entrepreneurship
- Decision analysis and decision support systems
- Production planning and scheduling
- Game theory and industrial organization
- Statistical Methods
- Quantitative Methods in Forecasting

The Conference website is <http://conf.uni-obuda.hu/nsc2012/>: For your convenience, we are attaching the first Call for Papers. The authors are encouraged to present a paper for publication in the edited books or conference Proceedings. The high quality papers will be selected for publication in *Journal of Applied Nonlinear Dynamics*, and *An Interdisciplinary Journal of Discontinuity, Nonlinearity and Complexity*. We look forward to hearing from you as soon as possible.

Paper Planning Schedule

Full paper submission:	May 1, 2012
Notification deadline:	June 1, 2012
Final paper submission:	July 1, 2012

Email submission as a pdf file attachment is acceptable. Please transmit papers to the following organizers or submit it to conference organizer Albert C.J. Luo via aluo@siue.edu.
